

The Water Authority-Cayman

Invites Applications for the post of

Senior Engineering Manager

The successful candidate will manage, within current policies of the Authority, the Engineering Services Department of the Water Authority, which comprises the Engineering Design and Project Management Division, the Construction and Inspection Division, and the Water and Wastewater Operations Support Division. He/she will report to the Deputy Director and will directly supervise several engineering managers, engineers and technicians.

JOB REQUIREMENTS:

- A Bachelor's Degree in Engineering (Mechanical, Civil, or similar) and an internationally recognized professional engineering qualification.
- At least ten (10) years' post-graduate engineering experience with the last seven (7) years having responsible charge of design and/or construction projects for water and/or wastewater infrastructure, serving in excess of 20,000 customers.
- Proficiency in AutoCAD and Microsoft Office products. Familiarity with ArcView and PLC programming and SCADA systems (HMI, ladder logic).
- Be highly self-motivated, productive, analytical, detail-oriented, energetic and able to work with minimum supervision.

The Water Authority offers competitive salaries, an international medical insurance plan, a pension plan and generous vacation benefits. The salary range for this post is CI\$82,430 - 103,030 (US\$98,100 - 122,600) per annum.

Please send applications including cover letters, resumes and references to:
