

INVITATION TO TENDER

Water Authority - Cayman

Tender No.: CTC/15-16/WAC/015

Project Scope: The Water Authority of the Cayman Islands invites eligible Contractors to submit a tender for the construction of a **water distribution pump station** at the Red Gate Water Works, George Town.

The Pumping Station comprises a reinforced concrete/masonry single-storey building, with a floor area of approximately 1,100 square feet.

Eligibility: Interested firms must meet the following eligibility criteria in order to be considered and evaluated:

- Companies must comply with all applicable local laws and regulations, including business regulations.
- Companies must satisfy all insurance, financial, and bonding requirements as specified in the Tender Documents
- Companies must provide references that will confirm the company's performance on five separate completed and similar sized projects.

Evaluation: The criteria for evaluation will be included in the tender documentation.

Collection and Access to Tender Documentation: Complete tender documents, including Instructions for Tendering can be collected from the Water Authority offices, 13G Red Gate Road, George Town from Monday, 19 October, 2015.

Return of Tenders: The tenders are to be returned no later than 12:00 noon on Wednesday 2 December 2015 in a sealed envelope to:

The Central Tenders Committee
c/o Treasury Department
Government Administration Building
97 Elgin Avenue, George Town
Grand Cayman KY1-9000

Late tenders will not be accepted.

Further information: For additional information contact the Deputy Director at tom.vanzanten@waterauthority.ky , or by phone 949-2837 ext 3000.

The Water Authority will not defray any cost incurred by tenderers. The Water Authority shall not be bound to assign any reason for not accepting any tender.
