<input type="checkbox"/> Fluidyne ISAM	<input type="checkbox"/> Other (specify)

TERMS & CONDITIONS

The Water Authority (WA) will maintain a Register of Service Providers to be made available to Owners of Onsite Wastewater Treatment Systems (OWTS).

Terms & Conditions for Registration:

- Company shall have a current Trade & Business Licence.
- Each Service Technician shall obtain log-in access to WA's OWTS Database: <http://www.carmodyuk.com>
- Company shall notify WA with any changes – additions or deletions - to their list of Service Technicians.
- Service Technicians shall have the basic tools and system information prior to making a service call.
- Service works shall be carried out in accordance with manufacturer and WA guidelines.
- Service events shall be entered in WA's OWTS Database: <http://www.carmodyuk.com> within 7 days of service.
- Company shall notify WA within 24 hours if system is left inoperable (e.g., waiting for parts, owner approval).
Use "No Contract" Action Button in OWTS Database (near "Maintenance" Action Button) to notify WA re system left inoperable.
- A report of repair works beyond the scope of Standard Service shall be uploaded to WA's OWTS Database
Upload repair report using "Attach Doc" Action Button in WA's OWTS Database (near "Maintenance" Action Button).

WA reserves the right to modify these terms and conditions in accordance with the goals of the OWMP.

Log-in access to WA's OWTS Database <http://www.carmodyuk.com> allows Service Technicians to view system details including location, installation photos, when the system was last serviced, and if that system was serviced by their company, can review the details of past service events (Technicians from one company cannot view records of another company.) WA sampling reports can be viewed by anyone with password access to the database.

By signing below, I agree to adhere to the terms and conditions of Service Provider Registration and acknowledge that failure to do so will result in my Company's Name being removed from the Register of Service Providers and password access to the Onsite Wastewater database being suspended.
