SEWERAGE RATES

Rates Modified 2012

Please note that Sewerage services are currently only available via the West Bay Beach Sewerage System.

Your sewerage rate is based on your property's assessed Sewerage Fixture Units (SFUs) and is calculated at a constant rate of \$1.607 per SFU.

An Energy Adjustment Factor (EAF) is also added to the your monthly bill. The EAF covers fluctuations in the cost of electricity used to process the sewage and varies monthly.
