NOW HIRING
GIS COORDINATOR

Water Authority - Cayman
"Suppliers of the World's Most Popular Drink"

The Water Authority–Cayman is seeking an experienced and suitably qualified **Geographic Information Systems Coordinator (GIS)** to join its team. The successful candidate will develop and implement a comprehensive GIS strategy, ensure integration with internal and external datasets (including Lands & Survey subscriptions), and maintain the Authority's geospatial data to support operational efficiency, asset management, and strategic planning.

JOB REQUIREMENTS:

- A Bachelor's degree in GIS, Geomatics, Geography, Engineering, or a related field.
- Minimum 3–5 years of professional experience in GIS system administration, preferably with ESRI products.
- Strong knowledge of ArcGIS Online, ArcGIS Pro or other 2D/3D mapping/GIS software.
- Experience in data migration, integration, and management of geospatial datasets.
- Excellent analytical and problem-solving skills, with the ability to translate operational needs into GIS solutions.
- Experience in the use of mobile data capture/field viewing applications.
- Strong communication skills, capable of training and supporting staff across technical and non-technical roles.
- Proficiency in Microsoft Office applications, particularly Excel and Power BI for data visualization.
- Familiarity with utility infrastructure and asset management systems is desirable.
- A valid Group 2 Driver's License from the Cayman Islands Department of Vehicle Licensing is required.

The salary range for the post is CI$73,740 - CI$92,180 per annum.

The Water Authority offers competitive benefits, including a 100% non-contributory pension & premier health insurance, and a generous leave package. This is a full-time permanent role and regular hours of work at 37.5 per week, Monday-Friday.
