

The Water Authority-Cayman

Invites Applications for the post of

Operations Engineer-Wastewater

The Water Authority of the Cayman Islands is seeking a qualified individual to manage its Operations-Wastewater Division and be responsible for the operations, maintenance and improvement of the Authority's public wastewater infrastructure. He/she will report to the Deputy Director, conduct continuous evaluation and analysis of service delivery and provide coaching, direction and training to supervisees.

JOB REQUIREMENTS:

- A Bachelor's Degree in Engineering (Civil, Sanitary, Mechanical, Environmental, or similar) and, preferably, an internationally recognized professional engineering qualification.
- At least five (5) years' post-graduate engineering experience in the operation and administration of a wastewater (collection and/or treatment) system.
- Wastewater collection system or treatment certification at the highest level offered where resident or most recent place of work.
- Specific experience with the installation, operation and maintenance of large capacity pumps and instrumentation (such as SCADA and online monitoring systems) related to wastewater utilities is essential.
- Proficiency in Microsoft Office Suite products is required; familiarity with basic programming concepts for process control equipment (programmable logic controllers) is preferred.
- Excellent communication and organisational skills and the ability to work with minimum supervision to meet specific deadlines.
- Must be physically fit and able to lift moderately heavy items.

The Water Authority offers competitive salaries, an international medical insurance plan, a pension plan and generous vacation benefits. The salary range for this post is CI\$75,340 - 94,170 (US\$89,700 - 112,100) per annum.

Please send applications including cover letters, resumes and references to:

Chief Human Resources Manager
P.O. Box 1104, Grand Cayman KY1-1102
Cayman Islands
Email: HR@waterauthority.ky

Application Deadline: 6 December 2019.
